Certificate

Rinderpest status of Iraq

This is to certify that following a recommendation of the OIE Scientific Commission for Animal Diseases, the International Committee of the OIE approved on 26 May 2009 that Iraq be recognised by the OIE as free from rinderpest in accordance with the provisions of Article 8.13.2. of the OIE Terrestrial Animal Health Code.

This recognition is based on the documentation submitted to the OIE by the Official Veterinary Services of Iraq. The Delegate of Iraq to the OIE has the obligation to notify the OIE immediately of any epidemiological event relating to rinderpest in Iraq and to confirm annually that the epidemiological situation has remained unchanged.
